Pembroke Regional Hospital, located 150 km northwest of Ottawa, is a regional acute care hospital offering a variety of acute and ambulatory care services including medicine, surgery, maternal and child care, regional mental health care, regional rehabilitation, district stroke centre, emergency and intensive care.

Our state of the art digital diagnostic imaging department offers a wide variety of diagnostic modalities including CT and nuclear medicine, and we have received approvals and are currently fundraising to bring an MRI to Renfrew County.

In our continued efforts to bring health care services closer to home, we have expanded in areas of systemic therapy and geriatric day program. In partnership with the Ottawa Heart Institute we offer an ambulatory cardiac rehabilitation program.

If you are looking for a career that offers challenging opportunities in a progressive facility, consider Pembroke Regional Hospital as your employer of choice!
