

PEMBROKE REGIONAL HOSPITAL

MEMO

TO: All Staff and Physicians

FROM: Mike Godbout, Director
Plant Services

DATE: 2023 July 11

SUBJECT: Planned Power Outage

There will be a planned electrical power outage on **Thursday July 13th** from approximately **6:30 p.m. to 9:30 p.m.**

This is required to install new breakers, conduit and wire in Emergency Power Panels DP-1 Conditional and DP-3 Vital for the Surgical Project. Only certain areas in Towers A, B and C will be affected. Temporary lighting will be set up in ED/ICU.

Note that if there is an outside power outage during the shutdown, the back up generators will come on and power the Hospital except for the areas being affected by the shutdown.

There have been two meetings held to prepare and address questions and concerns. Contingency plans are in place. However, please direct any questions that are specific to your department or to your Manager for discussion and clarification.

Command Centre (Extension 6199) will be operational from 6:00 p.m. to closely monitor any impact and address any unforeseen issues in a timely and coordinated manner.

Members of the Plant Maintenance Department will also be in the building during the power outage and will be ready to assist as required.

Thank you.
