

## PEMBROKE REGIONAL HOSPITAL

# MEMO

---

**TO:** All Staff and Physicians

**FROM:** Mike Godbout, Director  
Plant Services

**DATE:** 2023 February 28 - *REVISED*

**SUBJECT:** Planned Power Outage

---

There will be a planned electrical power outage today from approximately 5:00 p.m. to 6:00 p.m.

This is required to install new breakers, conduit and wire in Emergency Power Panel DP-2 Delayed Vital. Two new pieces of equipment are being installed in the Maintenance Control Room to support Medical Gasses. Only a few known areas in the Hospital will be affected.

***Note that if there is an outside power outage during the shutdown, the back up generators will come on and power the Hospital except for the areas being affected by the shutdown.***

There have been two preparatory meetings held to prepare and address questions and concerns. However, please direct any questions that are specific to your department to your Manager for discussion and clarification.

Command Centre (Extension 6199) will be operational from 4:30 p.m. to closely monitor any impact and address any unforeseen issues in a timely and coordinated manner.

Members of the Plant Maintenance Department will be in the building during the power outage and will be ready to assist as required.

Thank you.
