

## FULL-TIME INTENSIVISTS with LOCUM OPPORTUNITIES Pembroke Regional Hospital

**Pembroke Regional Hospital (PRH) is currently recruiting four full time intensivists as it expands its critical care services to 9 ICU beds.**

PRH is a full service medium size community hospital located 1.5 hours west of Ottawa. Pembroke is situated on the shores of Ottawa River and close to Algonquin Park. PRH delivers a broad range of acute, subacute, out patient and diagnostic and specialist services including CT, MRI, echocardiography, anaesthesia, general surgery, hospitalist medicine, obstetrics and gynecology, orthopedics, otolaryngology, physiatry, psychiatry, and urology. The hospital has a busy emergency department, seeing 35,000 visits annually. Inpatients are primarily cared for by our hospitalist group.

The Hospital is a designated District Stroke Center and currently has a level 3 ICU that is staffed by a comprehensive multi-disciplinary team of nurses, physicians, respiratory therapists; as well as social services, pastoral care, crisis intervention, speech, occupational and physio therapists. We have a well established referral protocol with local tertiary care centres in Ottawa.

With state-of-the-art services and associated technologies in place, PRH has earned a strong reputation as a teaching hospital; currently holding affiliation agreements with the University of Ottawa's faculties of Medicine and a local Family Medicine Residency program where the residents complete most of their core rotation here at PRH.
