

# FULL-TIME INTERNIST AND LOCUM OPPORTUNITIES

## Pembroke Regional Hospital

Pembroke Regional Hospital (PRH) is currently recruiting three full time internists to join our current team of three full time internists.

PRH is a full service medium size community hospital located 1.5 hours west of Ottawa. Pembroke is situated on the shores of Ottawa River and close to Algonquin Park. PRH delivers a broad range of acute, subacute, out patient and diagnostic and specialist services including CT, MRI, echocardiography, anaesthesia, general surgery, hospitalist medicine, obstetrics and gynecology, orthopedics, otolaryngology, physiatry, psychiatry, and urology. The hospital has a busy emergency department, seeing 35,000 visits annually. Inpatients are primarily cared for by our hospitalist group.

We envision growing our internal medicine program to include six general internists who will provide inpatient and emergency department consultations. The department of internal medicine will provide a daily ambulatory clinic space for urgent consultations, and post-discharge follow up. Internists share the interpretation of available diagnostic tests. This area has potential for growth once additional internists bolster the current team.

The Hospital is a designated District Stroke Center and has a level 3 ICU that is staffed by a comprehensive multi-disciplinary team including nurses, physicians, and respiratory therapists with access to all other allied health specialists. We have a well established referral protocol with local tertiary care centres in Ottawa.

---
