

Quick Tip

ACCREDITATION | April 3 to 6, 2023

Organ and Tissue Donation

- *Routine Notification* is the process of notifying Trillium Gift of Life Network (TGLN) when a patient has died or prior to death according to established indicators.

Criteria for routine notification to TGLN includes:

In the ICU/ED:

For all ventilated patients meeting the GIFT+ criteria

For all non-ventilated patients:

- within 1 hour of death
- topic of notation is raised by family/patient
- when patient requests MAID

Inpatient Units:

For all patients **79 years of age and younger**

- within 1 hour of death
- topic of notation is raised by family/patient
- when patient requests MAID

- Notify TGLN for neonatal deaths 36 weeks corrected gestational age and older
